

I am an employee with the City of Newport News. I spend much of my time traveling in my vehicle from site to site. K-LOVE is one of the few FM radio stations that is worth listening to. It is commercial free, supported 100% by listeners. Being a Christian it is hard to find encouraging stations with good quality music that do not have curse words in the lyrics etc. The community would be very bad off if Low Power FM stations push K Love, which I tune in at 90.7 FM, off the air. The public values K Love very much in my area. It helps keep us encouraged through the day. I recommend that what we have not be tampered with. I feel very strongly about this! Thank you and God Bless, Craig J. Hofmeyer, Williamsburg, VA.
